L&D is very professional and did an absolutely amazing job taking out our old deck. We will definitely be calling them in the future for other projects!

Luis and his crew did an amazing job when we needed junk removal services quickly! I called him and they showed up the same afternoon, worked quickly and efficiently, and at a great price! We will definitely be using them again in the future!

Extremely happy with Inspired Funding. Peter Schneider was most helpful in getting our financing, and very professional. After other relationships with less responsive lenders, I will only work with this company.

Luis and his crew made short work of cleaning up my overgrown and vandalized property. They completely transformed my property from a total disaster to ready for sale in a day and a half. They picked up several piles of dumped garbage, removed several fallen trees and years of overgrowth, picked up trash and cleaned up inside the house. I am impressed with the quality of work done! Highly recommended!

The guys did great!! Couldn't ask for a better team. They were on time, set a good price and were very fast in the removal. 10/10 would recommend for anyone needing removal services/assistance.

L&D Demolition were able to meet me the same week that I contacted them with pictures of an old shed that needed removing. We agreed on a price and they got the work done the same day, as well as removal of some old appliances from our basement. I'm giving them 5 stars because they were professional and did all of the work they said they would. The only thing they could have done better was be on time for our meeting. They were 30 minutes late because of a fuel stop, so be prepared to possibly wait a little while for them. However I'm glad I did, because they hauled off a bunch of stuff that now we don't have to worry with.

They were great. They responded within minutes and were able to complete the job the following day. This involved moving a 400 lb treadmill up a flight of stairs, which was no easy task. They were also very helpful in emptying out a cluttered garage. This included attention to detail such as sweeping fine debris when they were done. I will definitely hire them again.
